

BigWood "Bukashka"

Mikhail Ryabchikov

Stability:

HS:134

Layer Notes:

Kirovsk

08/12/2018 - 00:40

Air Temperature: -7.3°C

PF:26

85-76cm: few wind-packed crusts

Russia

Co-ord: 531266E 7499141N

Sky Cover: X

62-60cm: Problematic layer

Elevation: 890 m

Slope Angle: 30°

Precipitation: NO

58-29cm: series of decaying crusts.

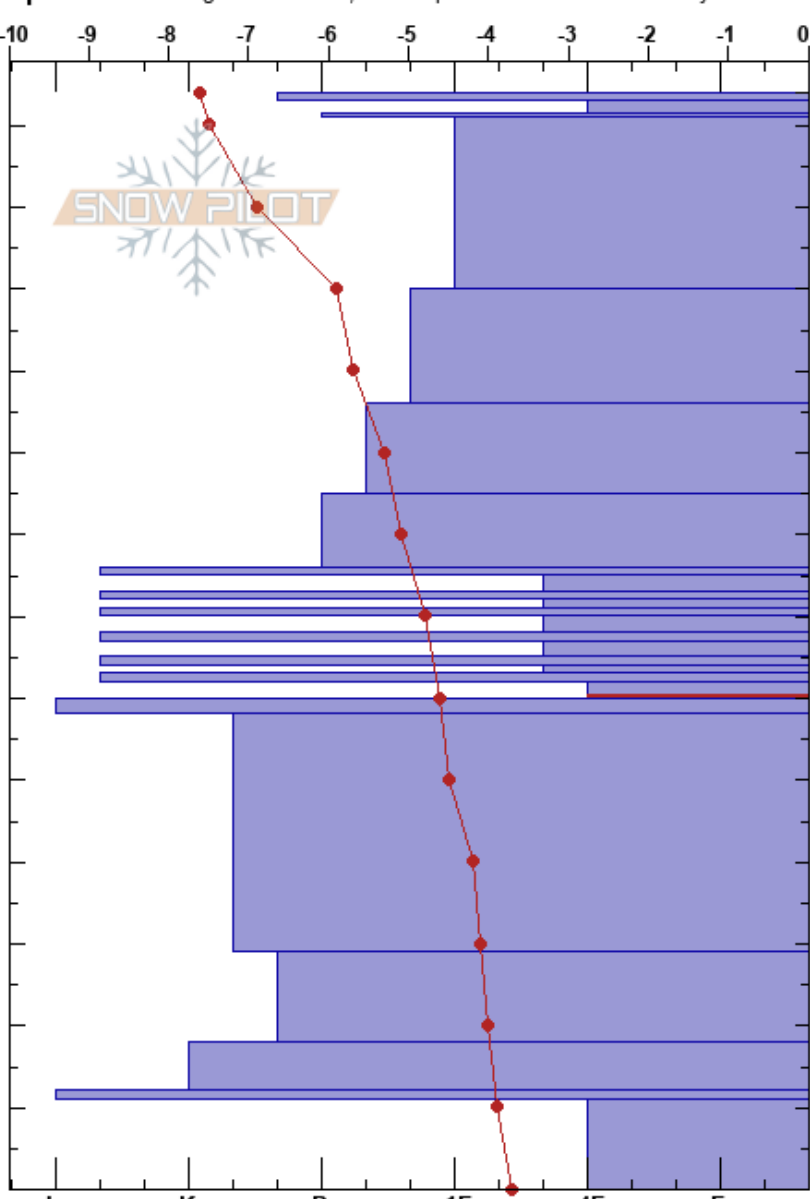

Aspect: NW

Wind Loading: yes

Wind: SE Moderate

11-0cm: in the unevenness of the u

Specifics: Pit dug in a Ski Area; Pit is representative of backcountry

Depth (cm)	Crystal		Moisture	ρ kg/m³	Stability tests & Layer comments
	Form	Size
