

Wimpys  
 Teton Range  
 WY  
**Elevation:** 9000 ft  
**Aspect:** E  
**Specifics:** Cracking; Ski tracks on slope

Brenden Cronin  
 01/08/2017 - 2:30pm  
**Co-ord:**  
**Slope Angle:** 32°  
**Wind Loading:** previous

**Stability:**  
**Air Temperature:**  
**Sky Cover:** OVC  
**Precipitation:** S1  
**Wind:** SW Light Breeze

**HS:**260  
**PS:** 15 214-211cm:Problematic layer

**Notes:** We did not ski this particular slope but headed south and skied a similar slope.  
 Observed some cracking on NE aspect as we traversed towards our ski run.
