Slope Angle: 28°
Wind Loading:

Stability:
Air Temperature: -1°C
Sky Cover: CLR
Precipitation: NO
Wind: Calm

HS:185
PS: 30
185-170cm: moist on surface
157-125cm: Storm snow above 125
125-112cm: Old snow surface
125-112cm: Problematic layer
85-0cm: Not evaluated

Notes: No obvious signs of instability. Temperature inversion. Steeper sun exposed slopes above 8500 feet had moist surface snow or mf crust.
