

Bullion Basin
 Crystal Mtn
 WA
 Elevation: 6125 ft
 Aspect: 45°
 Specifics:

Steve Gately
 01/06/2019 - 10:05am
 Co-ord: 46.93024N, -121.45902W
 Slope Angle: 31°
 Wind Loading: no

Stability: HS:148
 Air Temperature: -6°C
 Sky Cover: BKN
 Precipitation: S-1
 Wind: SW Calm

Layer Notes:

Notes: Was specifically looking for the 12/25 buried SH, but couldnt find it. Instead I found a myriad of melt freeze crusts in the upper snow pack. CT and ECT results were all resistant planar. I found what might have been our SH in between 86cm-83cm from the bottom but it was so decomposed and rounded that if it was there, its all but gone at this point.
