

Grouse Ridge  
 North Cascades, West  
 WA  
 Elevation: 5100 ft  
 Aspect: 15°  
 Specifics:

Andrew Kiefer  
 02/17/2019 - 10:00am  
 Co-ord: 48.78810N, -121.89960W  
 Slope Angle: 30°  
 Wind Loading:

Stability: Fair  
 Air Temperature: HS:325  
 PF:80 265-264cm:Problematic layer  
 Sky Cover: FEW  
 Precipitation: NO  
 Wind: NE Moderate

**Notes:** Feb 8 PWL - no recent avalanches failing on this layer in the terrain observed. Targeted this layer in snowpack tests in two other nearby locations as well (NE 5900ft and S 5400ft) and could not get it to propagate a fracture.
