

Sugar Top

Remarkables Range

New Zealand

Elevation: 1880 m

Aspect: SW

Specifics: Pit dug in a Ski Area; Pit is representative of backcountry; Ski tracks on slope; We skied slope

Remarks Snow Safety

25/09/2019 - 01:15

Co-ord: -45.05181S, 168.82892E

Slope Angle: 18°

Wind Loading:

Stability: Very Good

Air Temperature: -7°C

Sky Cover: X

Precipitation: NO

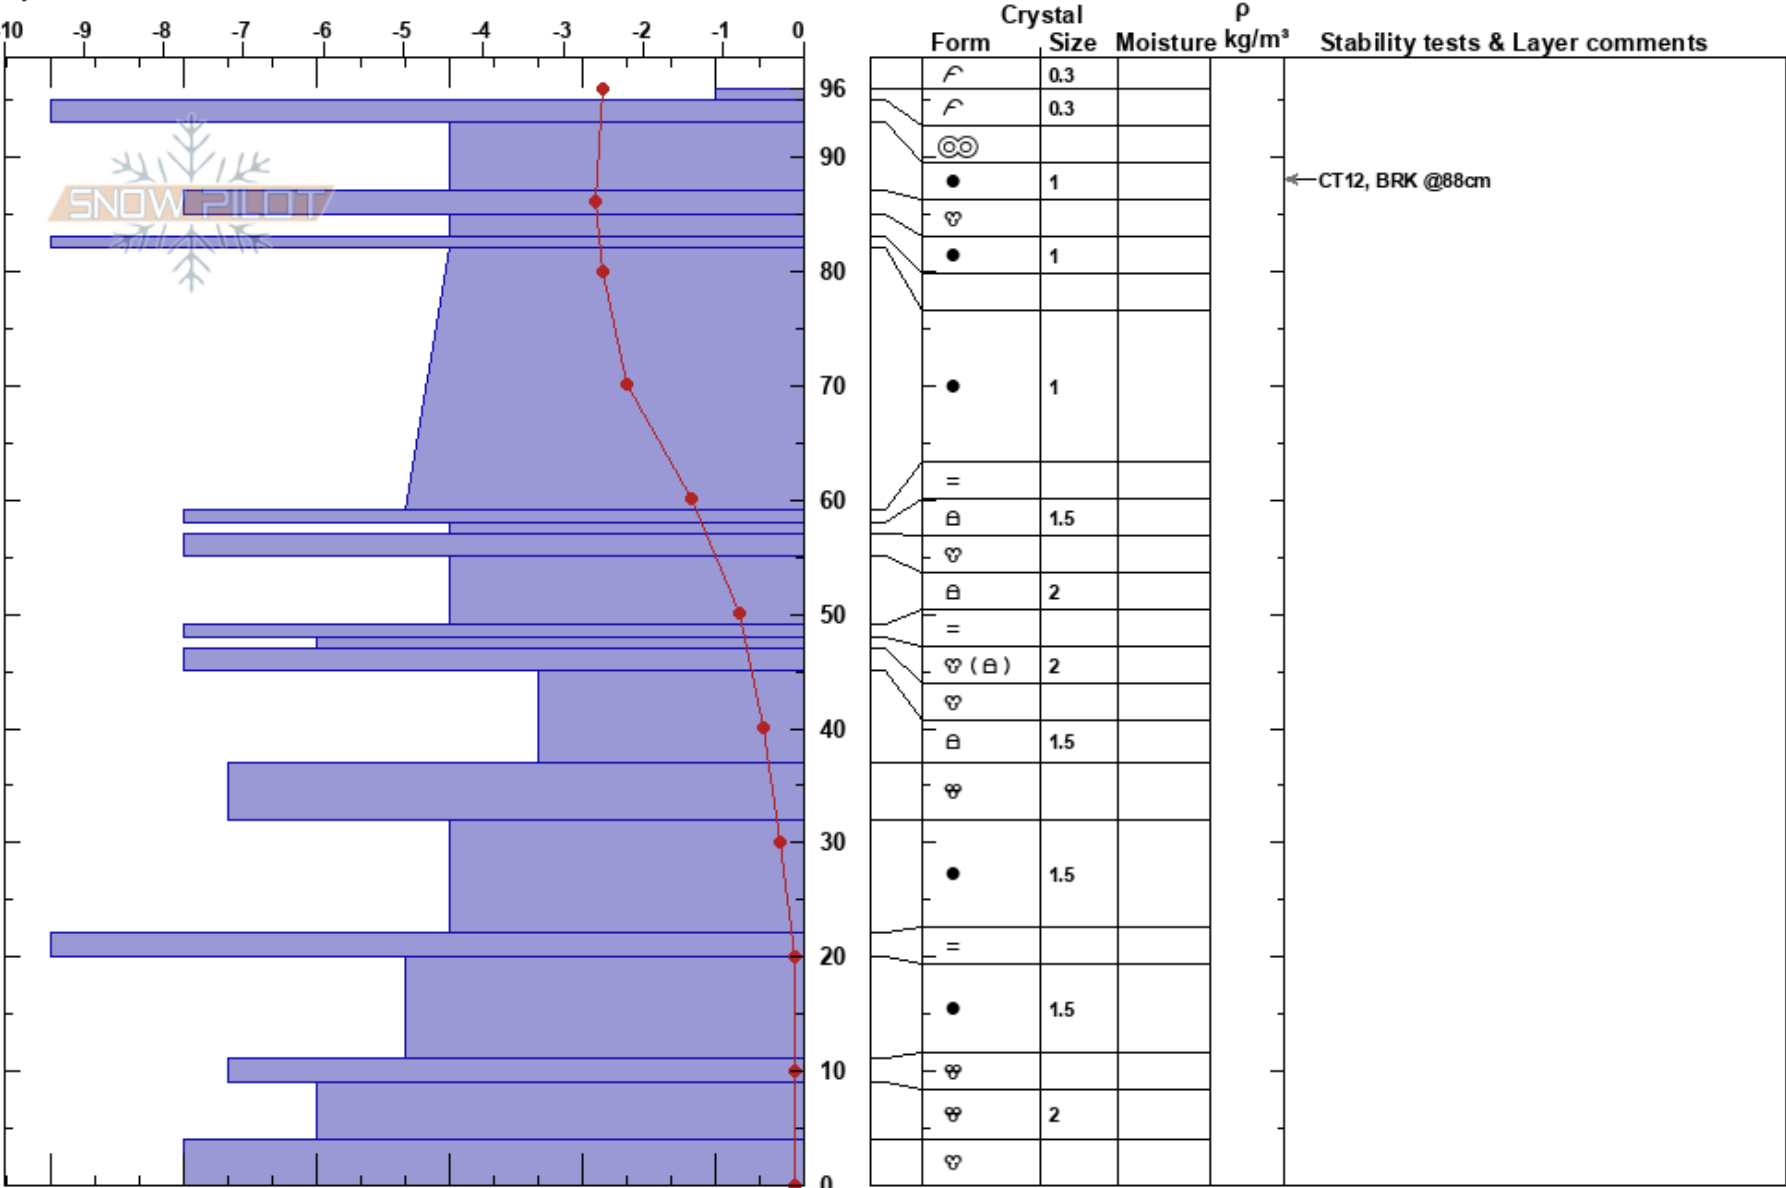

Wind: SW Light Breeze

HS:96

PF:20

93-87cm:Problematic layer

Layer Notes:

Notes: Weekly-ish snowpit by Irene, Grice, Oli. Only results were below uppermost crust, broken between 93-85 layers. Despite lower 'weak' layers between crusts, crusts are keeping snowpack well locked in place.
