Co-ord: 61.79201N, -149.26059W
Slope Angle: 32°
Wind Loading: no

Stability:
Air Temperature: 25°F
Sky Cover: CLR
Precipitation: NO
Wind: NE Light Breeze

HS:110
PF:60
35-0cm: Problematic layer

Layer Notes:

Notes: Conditions reflect first snow storm of season. Below 3500', snowpack was wet and grabby. Above 3500', dryer loose powder. Numerous small point releases. Observed a major skier initiated sluff on higher S. aspect MicroDot. Big wet natural sluff down Martin mine gully released during storm.
