 Specifics:

JAMES ROWLAND  
 01/09/2020 - 10:00am  
 Co-ord: 48.37606N, -116.65456W  
 Slope Angle: 24°  
 Wind Loading: no

Stability: **HS:150**  
 Air Temperature: -14°C **PF:32** 49-50cm:Problematic layer  
 Sky Cover: CLR **PS:15**  
 Precipitation: NO  
 Wind: W Light Breeze

**Notes:** Snowpack is 300mm at this location with only the top 150cm observed.

General concern at 50cm down on ice crust with new load coming as well as numerous ice crusts from 102cm through 117cm. Stability test did not show a significant hazard in this area however. Observer noted that new snow appears to be bonding better to the 50cm crust.
