 Co-ord: 47.75668N, -121.10321W
 Slope Angle: 34°
 Wind Loading: previous

Stability:
 Air Temperature: HS:400 PF:65 82-83cm:Problematic layer
 Sky Cover: BKN PS:90
 Precipitation:
 Wind: NW Light Breeze

Notes: Crown of a slide triggered from below, which buried three people while skinning uphill on 2/16/2020. Self rescued and no injuries reported. PST results altered as we found a frozen rollerball in the sun crust, which created a non planar surface. With Joe Dellaporta.
