**Slope Angle:** 30°  
**Wind Loading:**

**Stability:**  
**Air Temperature:**  
**Sky Cover:** CLR  
**Precipitation:** NO  
**Wind:** Calm

**HS:**97  
**Layer Notes:**  
 78-77cm:Problematic layer

**Notes:** Snowpit location was almost a due south, but also in a location that was partially shaded by some old growth whitebark pine trees.

Some surface hoar observed today in upper Sheep Creek, though not quite as abundant as in upper Pebble Creek the day before (about 1km away as the crow flies to the west). Slightly more surface wind effect in upper Sheep Creek.
