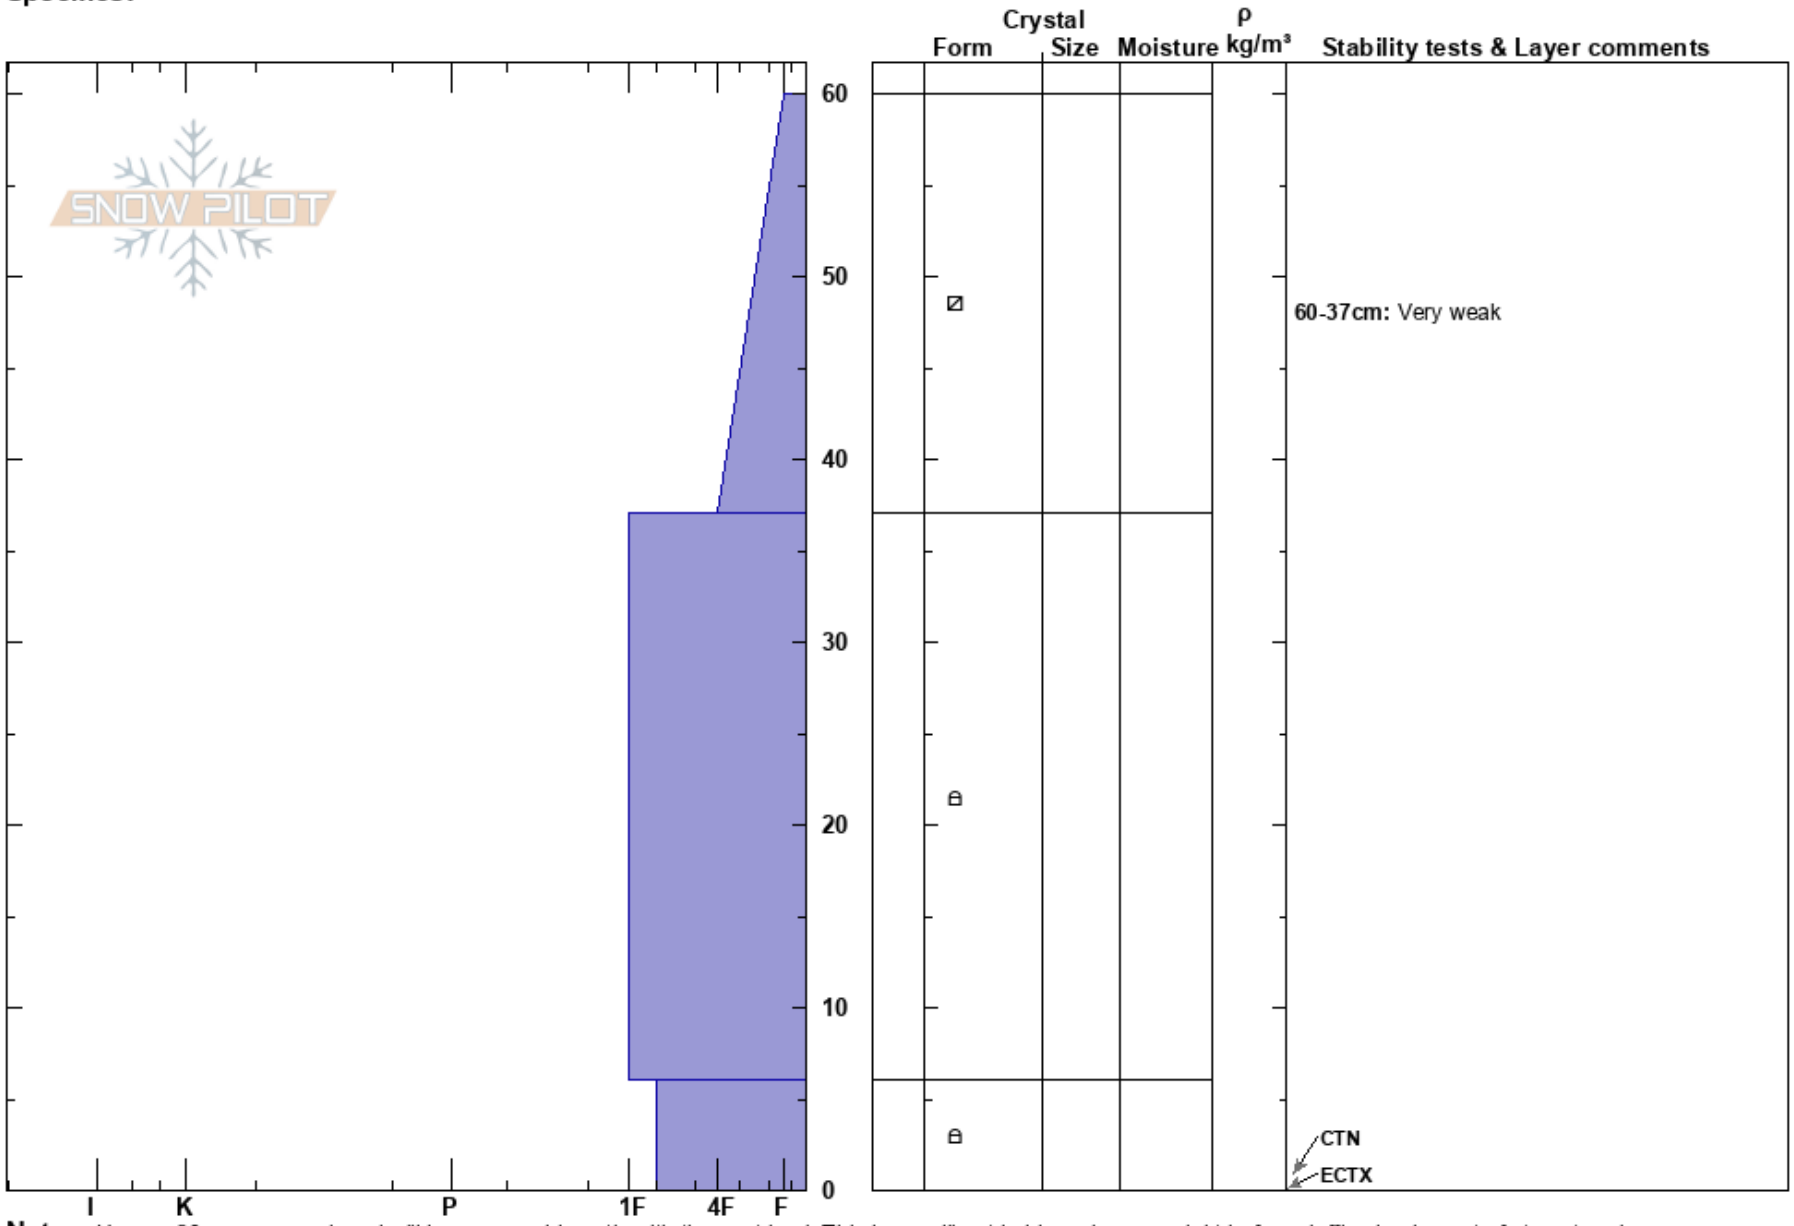
Above Blue Point
San Juan Range
CO
Elevation: 11128 ft
Aspect: 30°
Specifics:

Ann Mellick
12/09/2020 - 11:20am
Co-ord: 37.91051N, -107.70726W
Slope Angle: 22°
Wind Loading:

Stability:
Air Temperature: 4.5°C
Sky Cover: CLR
Precipitation: NO
Wind: Calm

HS:60

Layer Notes:
60-37cm: Very weak
60-37cm: Problematic layer



Notes: Upper ~20cms are weak and will become problematic with the next load. This layer will not hold much new weight before sluffing begins out of steep terrain.
