**Slope Angle:** 36°  
**Wind Loading:**

**Stability:**  
**Air Temperature:**  
**Sky Cover:**  
**Precipitation:**  
**Wind:**

**HS:** 121  
**Layer Notes:**  
 63-41cm: Problematic layer

**Notes:** This snowpit was dug in a location that was mid-track but off to the gunner's right and not part of the avalanche. Some debris flowed around this location. This location was protected from debris by some trees.
