South Pk. saddle Barbara Wanner Sierra Nevada 12/28/2020 - 11:00am

CA Co-ord: 11S 302368W 4212742N

Elevation: 3238 m Slope Angle: 25°
Aspect: Wind Loading: no

Stability: Air Temperature: -10°C

Sky Cover: OVC PS:4

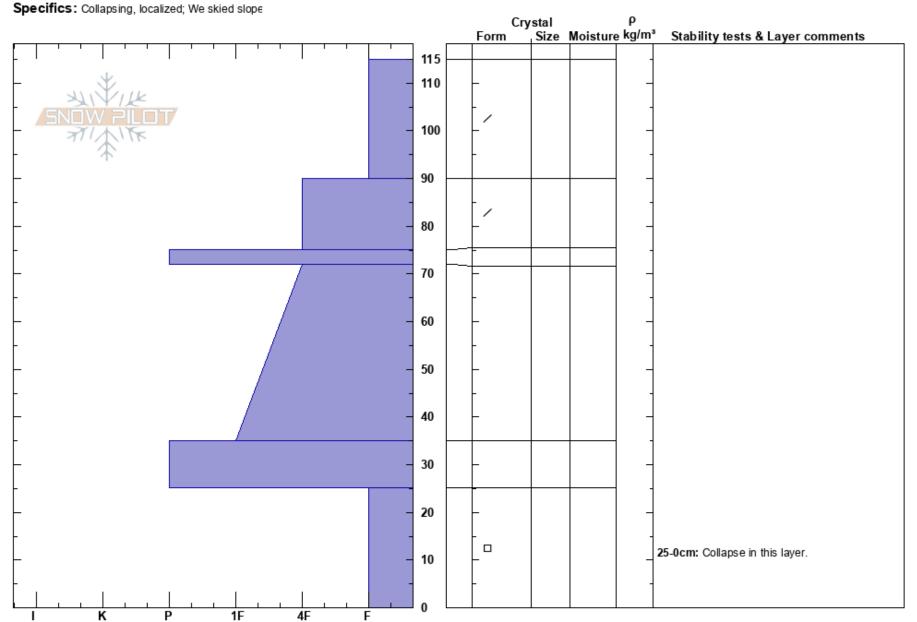

PF:60 **PS**:40

HS:115

115-90cm: Problematic layer 25-0cm: Collapse in this layer.

Layer Notes:

Precipitation: NO Wind: NE Light Breeze

Notes: 40 cm of very light, low density snow fell in this system. No evidence of wind loading. New snow was almost equally deep on all aspects. There might have been a light breeze that slightly favored snow deposition in gullies.
