Co-ord:

Slope Angle: 18°

Wind Loading:

Stability:

Air Temperature: -3°C

Sky Cover: OVC

Precipitation: S1

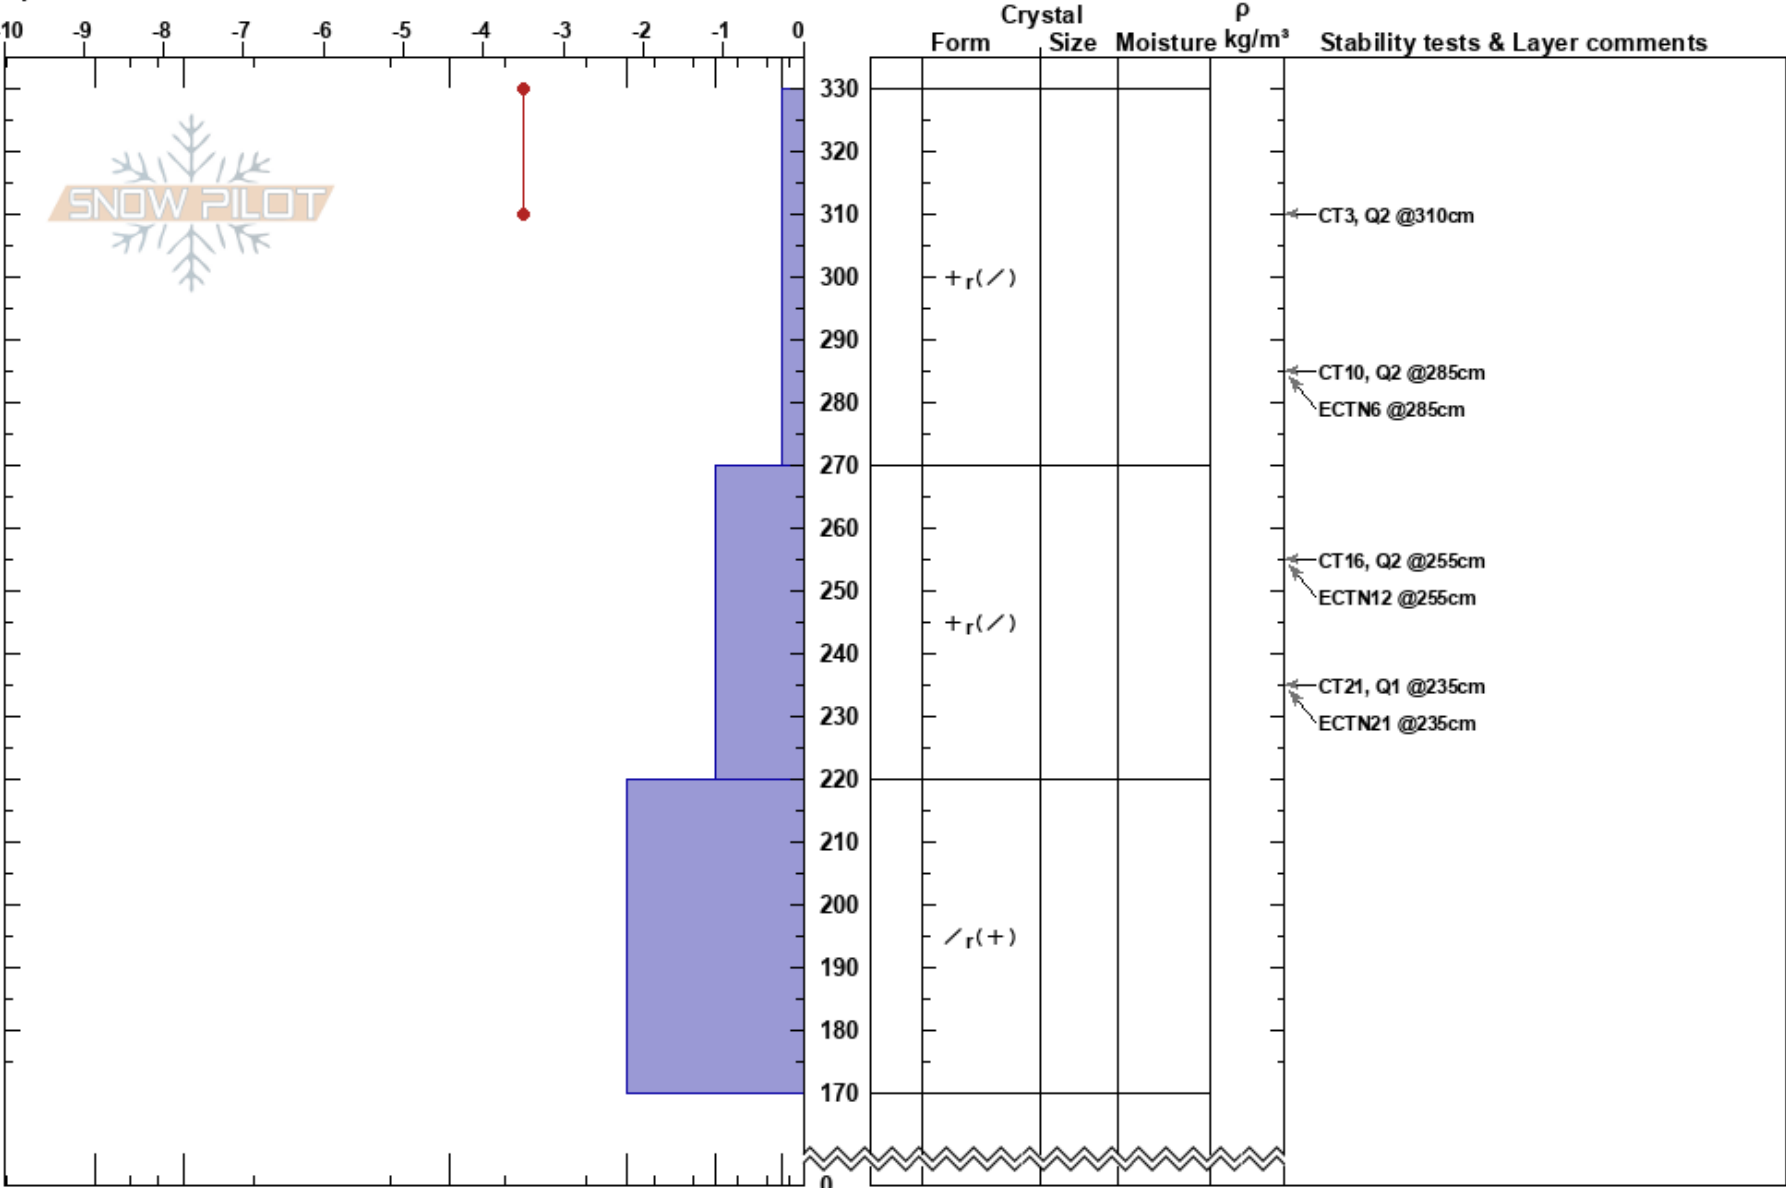

Wind: Calm

HS:330

PF:100

PS:35

Layer Notes:

Notes: Minor localized cracking, 8-10" pockets of storm slab touchy on small convexities. Dug pit below the weather station. Pit depth was 160cm, we did not dig to Dec 1 crust.
New snow was right side up.
