

Campbell Hollow
 Uinta Range
 UT
 Elevation: 9737 ft
 Aspect: 50°
 Specifics:

Mark Staples
 01/29/2021 - 12:30pm
 Co-ord: 40.45989N, -111.14962W
 Slope Angle: 26°
 Wind Loading:

Stability: HS:119
 Air Temperature: PF:119
 Sky Cover: 87-80cm: some nsfs
 Precipitation: 44-40cm: Problematic layer
 Wind:

Notes: Some nsfs seen at 80 cm, this layer could be more reactive in other places. Overall this snowpack felt like a slightly deeper and stronger snowpack than we've been seeing.
 ECT and RB would barely break on facets at 44.
