 Layer Notes:
 130-129cm: Problematic layer
 127-115cm: 1/12 rain crust
 112-110cm: 1/12 rain crust
 108-106cm: 1/12 rain crust

Notes: Layer of concern was already collapsed in this area. Other locations we could find 2cm buried surface hoar. It was too cold to find a pit that it was still in tact in!
