

Table Mtn WA
North Cascades, West WA
Elevation: 1566 m
Aspect: NW
Specifics: Ski tracks on slope; We skied slope

Barbara Wanner
05/10/2021 - 2:00pm
Co-ord: 10U 595722W 5411405N
Slope Angle: 20°
Wind Loading: no

Stability:
Air Temperature: 4°C
Sky Cover: BKN
Precipitation: NO
Wind: SW Light Breeze

HS:395
PF:11
PS:5

Layer Notes:
0-5cm: Loose wet slough pot.
0-5cm: Problematic layer

Notes: Intense solar radiation, a cloudy sky and the above freezing airtmp created very mediocre skiing conditions in the Heather Mdws area on 5/10/2021. The snow felt heavy and sticky. I did not appear that there had been an overnight surface freeze.
