04/08/2021 - 10:45
Co-ord: 59G 454938E 5160014N
Slope Angle:
Wind Loading: previous

Stability: Good
Air Temperature:
Sky Cover: FEW
Precipitation: NO
Wind: Calm

HS:300
PS: 30
Layer Notes:
10-20cm: Problematic layer
105-105.2cm: did not dig below this

Notes: Large wind waves visible especially on W-SW aspects, in major valleys that channelled the wind and near ridge top. Eastward facing hanging side-valleys generally escaped the S wind.
HS >300 (depth of probe)
