 12/03/2017 - 2:00am
 Co-ord: 39.29700N, -120.34700W
 Slope Angle: 18°
 Wind Loading: no

Stability: **HS:80**
 Air Temperature: -5°C **PF:27** 10-0cm: Problematic layer
 Sky Cover: FEW
 Precipitation: NO
 Wind: S Light Breeze

Notes: Although pit is within ski boundary, resort is not open yet. No snowmaking, grooming has impacted site. 20 cm of new unconsolidated low moisture snow fell last night and is sitting on top of a fairly homogeneous frozen slab 60 cm thick, which has a weak layer at the ground. Shovel pull on remaining column after ECT released entire column as block all the way to the ground. see photos.
