 Slope Angle:  
 Wind Loading:

Stability: Very Good HS:35  
 Air Temperature:  
 Sky Cover:  
 Precipitation:  
 Wind:

Layer Notes:  
 35-25cm: will facet this week  
 35-25cm: Problematic layer

Specifics: Ski tracks on slope

Notes: Nothing notable in this pit except old except there was only 5 cm of old, hard snow. It will be interesting to see if snow on this aspect (SW) develops nsf's this week during high pressure and cold air temperatures.
