

Top of Salto Glades

Front Range

CO

Elevation: 10600 ft

Aspect: 60°

Specifics: Pit dug in a Ski Area; Pit is representative of backcountry

Eddie Schoen

12/18/2017 - 2:30pm

Co-ord: 39.94417N, -105.60917W

Slope Angle: 20°

Wind Loading: previous

Stability:

Air Temperature: -6°C

Sky Cover: BKN

Precipitation: NO

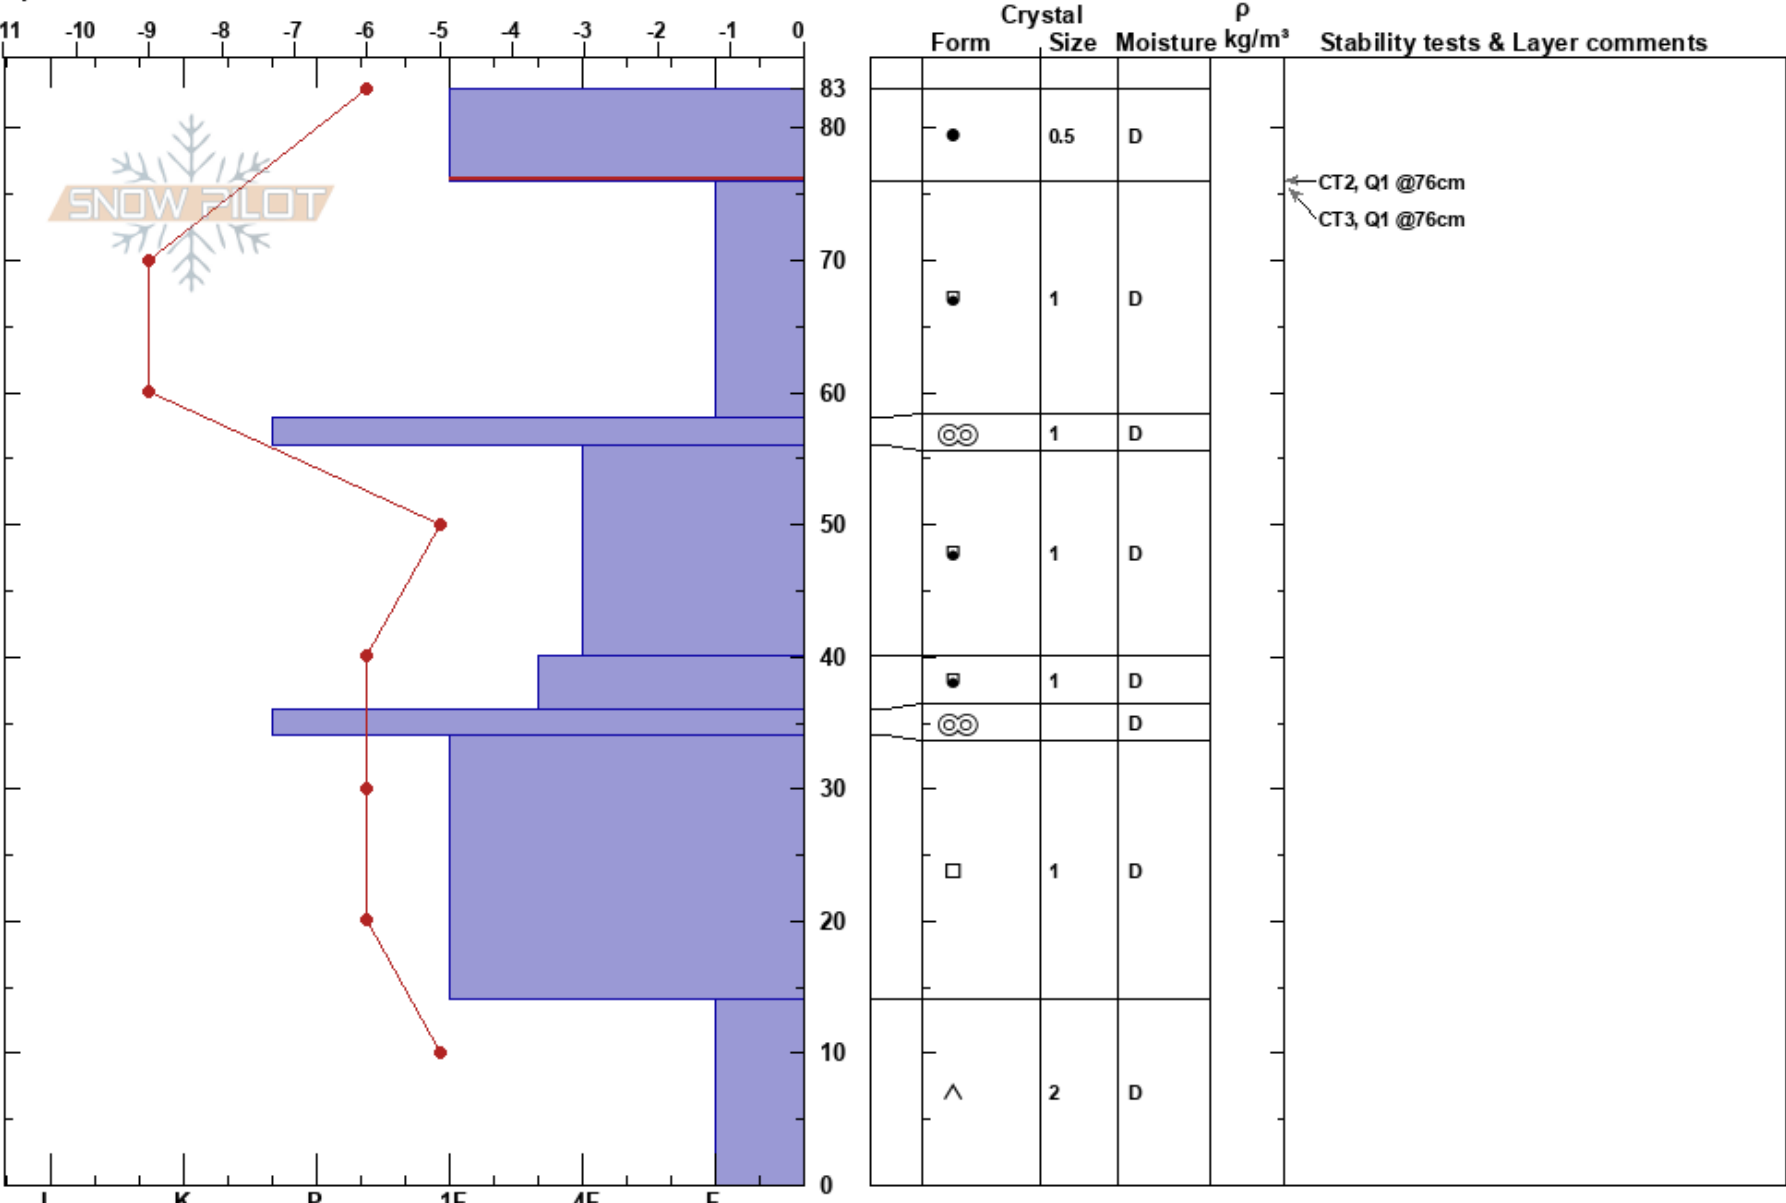

Wind: W Moderate

HS:83

PF:40

83-76cm:Problematic layer

Layer Notes:

Notes: Stability test results duplicated on upper most windslab, layer is isolated to specific terrain features but quite touchy. Ran out of time so additional stability tests should be performed to analyze reactivity and propagation potential of several lower weak layers which are still shallow enough to be easily triggered or result in step-down activity.
