Co-ord: 41.42236N, -111.51446W  
Slope Angle: 24°  
Wind Loading:

Stability: Very Poor  
Air Temperature:  
Sky Cover:  
Precipitation:  
Wind:

HS:94  
Layer Notes:  
44-40cm: Problematic layer

**Notes:** Very similar snowpack structure on all shady aspects. Minimal avalanche terrain in this area so not much activity, but lots of cracking on steep road cuts.
