

Cooks Lk Area  
 Selkirk Mtns  
 ID  
**Elevation:** 1897 m  
**Aspect:** NE  
**Specifics:**

M. Krmpotich  
 01/12/2023 - 11:30am  
**Co-ord:**  
**Slope Angle:** 24°  
**Wind Loading:**

**Stability:**  
**Air Temperature:** -3°C  
**Sky Cover:** OVC  
**Precipitation:** S1  
**Wind:** Calm

**HS:** 190  
**PF:** 45  
**PS:** 20  
**175-164cm:** 1/8 storm  
**164-163.5cm:** 1/8 SH. See Notes  
**164-163.5cm:** Problematic layer  
**127-125cm:** Christmas Crust  
**86-45cm:** Mostly RG's

**Notes:** Sweeney Ridge area. Did two other CT's at 6300' SE aspect (just around corner from pit loc) CT 7 Q2 down 20 cm on SH.  
 1/8 (20230108) SH distribution: easily to see - to subtle; found most places around 6000', down 15-25 cm, on S-E-N aspects.
