Pine Valley Ian Dempsey Stability: Very Good HS:137 Layer Notes: Southwest Utah 01/31/2023 - 3:30pm Air Temperature: 17°F PF:60 Co-ord: 37.36083N, -113.48257W Sky Cover: CLR PS:20 UT Elevation: 8208 ft Slope Angle: 27° Precipitation: NO Aspect: N Wind Loading: no Wind: Calm Specifics: We skied slope

Notes: Red flags: One small dry loose slough-like slide on a 35-40 degree slope that entrained the 3 or 4 inches of surface snow, about 2 feet wide and ran for 10 feet. As I skied down a 35-40 degree slope there was some sloughing of the dry sugary surface snow, as well.
