

Upper Smoker's Slide  
 Teton Range  
 WY  
**Elevation:** 9300 ft  
**Aspect:** S  
**Specifics:** Pit dug in a Ski Area

Bobby Griffith  
 01/22/2018 - 2:15pm  
**Co-ord:** 43.60257N, -110.85372W  
**Slope Angle:** 32°  
**Wind Loading:** no

**Stability:** Good  
**Air Temperature:**  
**Sky Cover:** OVC  
**Precipitation:** S5  
**Wind:** Calm

**HS:190**  
 159-111cm: Mid-January Storm  
 108-87cm: X-Mas Storm  
 75-70cm: Thanksgiving Crust

**Notes:** Pit was dug during the most recent snow event in an undisturbed, unskied area of the resort. Patrollers involved: M. Kaso, B. Griffith.

At this elevation, the persistent deep layer seems to be healing and starting to bond. Could not initiate failure using standard testing methods. Did not dig below this layer.
