 248-239cm: new snow 3/10  
 225-224cm: Problematic layer  
 224-145cm: 2/25-3/5 storm snow  
 110-102cm: Feb. 3

**Notes:** Did not find, anywhere today, the buried SH formed 3/7-9, though was expecting it. Some/a little wind affected snow near ridgetop. Similar pit results a bit lower on ridge, NW asp.
