

Hunter Hill
 Stevens Pass
 WA
 Elevation: 4750 ft
 Aspect: 275°
 Specifics:

Aaron Bamett
 03/18/2024 - 12:00pm
 Co-ord: 47.73889N, -121.11115E
 Slope Angle: 25°
 Wind Loading:

Stability: HS:358
 Air Temperature: 9°C PF:36
 Sky Cover: CLR
 Precipitation: NO
 Wind: Calm

Layer Notes:
 0-2cm: Problematic layer
 100-103cm: MFxf 2/24 Crust
 120-140cm: MFxf EFC

Notes: Water has only percolated down as far as the old/new interface from 3/9. The surface hoar at this depth has transitioned into melt forms and there is a slight ice layer at this depth as well. Pit score=9. Good structure, good energy, good strength.
