

Roman Nose Lakes
Selkirk Mtns
ID
Elevation:
Aspect: S
Specifics:

M. Krmpotich
03/25/2024 - 12:00pm
Co-ord: 48.63953N, -116.59099W
Slope Angle:
Wind Loading: no

Stability:
Air Temperature:
Sky Cover: SCT
Precipitation: NO
Wind: Calm

HS:185
Layer Notes:
185-170cm: 3/23 new snow
170-158cm: Problematic layer

Notes: Similar structure and results (drier, thinner melt freeze crusts, and much deeper snowpack) in nearby N aspect pit.
Surface Hoar on surface- N and S aspects, still present on south aspect after morning sun
