

QH3
 Treble Cone
 New Zealand
Elevation: 1950 m
Aspect: SE
Specifics: Pit dug in a Ski Area

Ilewellyn murdoch
 14/08/2024 - 12:30
Co-ord: -44.63153N, 168.87531W
Slope Angle: 36°
Wind Loading: previous

Stability:
Air Temperature:
Sky Cover: FEW
Precipitation: NO
Wind: W Light Breeze

HS:92
PF:25
Layer Notes:
 72-68cm: 240719
 59-53cm: 240624
 33-30cm: 240601
 20-19cm: 240518
 19-0cm: Problematic layer

Notes: Extremely weak area as the snowpack continues facet throughout. DH falling out when dug. Crust appear to be breaking down very slowly
 Preserved SH isolated in the terrain to very sheltered areas.
