

Milk Run
 San Juan Range
 CO
Elevation: 10500 ft
Aspect: 70°
Specifics: We skied slope

Josh Coffin
 02/22/2018 - 11:00am
Co-ord: 37.66548N, -107.84039W
Slope Angle: 38°
Wind Loading: yes

Stability: Fair **HS:** 130 **Layer Notes:**
Air Temperature: 12°F **PS:** 35 85-84cm: Problematic layer
Sky Cover: OVC
Precipitation: S1
Wind: S Moderate

Notes: Upper slab supportive to skier weight but PB (95cm) almost to ground. No obvious signs of instability. Avalanches triggered by light loads initiated in upper snowpack will likely step down to basal layers.
