

Brighton Periphery  
 Central Wasatch  
 UT  
**Elevation:** 10050 ft  
**Aspect:** NE  
**Specifics:**

steven clark  
 03/23/2018 - 1:00pm  
**Co-ord:** 40.59099N, -111.60419W  
**Slope Angle:** 10°  
**Wind Loading:** previous

**Stability:** HS:210  
**Air Temperature:** -2°C **PF:** 10 **32-50cm:** Problematic layer  
**Sky Cover:** OVC  
**Precipitation:** S1  
**Wind:** NW Light Breeze

**Notes:** Looking for spatial extent of rain/snow line and snowpack saturation levels. Above ~9500 ft in the upper cottonwoods seems to be the level at which water stayed within the new snow and did not percolate into the lower portions of the snowpack. Did not dig to ground.
